Rotary Donations In Kind

Rear Shed 40, 400 Somerville Road West Footscray VIC 3012

Computers 4 Kids and Community

Computers 4 Kids and Community is a specialist operation within the Store run by volunteers that recycles computers and makes the available for genuine causes at minimal cost. They check the performance, remove the existing programs and add authorised Microsoft program and others designed to assist with educating users.

Material Required

While all recent model computers are welcomed the No1 Priority is to get commercial quantities of computers preferably batches of 20 – 200 of the same model as they are much quicker to process than individual unit. With the new laws regarding disposal of computers it can be an expensive time consuming exercise for any organization. Donating your computers to this cause may be ideal for your business. If appropriate the residual value can be written off as a tax deduction. There is also the major PR bonus of donating them to a worthy cause.

Donations In Kind also offers organizations the opportunity to adopt a project; to use their surplus equipment to start a Computer School in a developing country with their name on the door.

Availability

Often computer sets are available from stock, but if you require a significant quantity ordering in advance is essential. As a general rule the computers are only available for authorised Rotary Club Projects as we lack the personnel to deal directly with the public. If you have a worthwhile cause, contact a local Rotary Club and ask them to sponsor you.
