Computers for East Timor

East Timor has come a long way in the few short years that the country has been in existence. From a beginning where large buildings did not exist in many areas, because they had been destroyed and basically no infrastructure the improvements have been dramatic. Buildings with electricity now exist in many areas and are rapidly being erected. A school system now exists often with the students being the first generation in the family to receive formal education. The country is now ready to use computers in large numbers and the recycled computers available from Computers 4 Kids are perfect.

Our aim is to obtain donations of large numbers of the same model of computers from the corporate sector. Computers 4 Kids checks the computer, removes the existing data and programs and installs a Microsoft Program under a special licensing agreement. If you have computer skills and have some time available they would welcome your help. The computers will be given to specific organizations that have been checked and approved by the local Liaison Officer Daryl Mills who will ensure that the computers arrive at the destination.

The cost of having a full computer package with all of the accessories delivered to the recipient is only \$60. Rotary Clubs can support this project at any level and can choose a project that suits their budget. The following are some of the many requests we have.

Project	Location	No reqd	Reason	Cost \$
Canossa Foundation				
High School	Ossu - Viqueque	20	Multi Media Studies	1200
High School	Comoro - Dili	30	Multi Media Studies	1800
